

## SAILING INSTRUCTIONS

### AMENDMENT #3

#### **Sailing Instructions – 1.4**

**SB20 Class Rule C.5.1, except for C.5.1 (2)**, shall not apply. It is not necessary to have the mandatory items listed in the class rules on board except for a non-floating line, minimum 30m long of not less than 8mm in diameter. This is to promote participation from the local SB20 fleet by reducing entry barriers and it reflects the existing racing and sailing activities of the local fleet where boats are sailed without all of the mandatory items as stated in the class rules. OA has the necessary race support, safety and first aid coverage in place during the regatta to address this point.
